PASADENA, CA (August 1, 2018) – USC Pacific Asia Museum is proud to announce the museum's new fall exhibition, *Ceremonies and Celebrations: Textile Treasures from the USC Pacific Asia Museum Collection*, drawn from the museum's extraordinary collection of over 2,700 costumes and textiles from China, Korea, Japan, India, the Himalayas and Southeast Asia. In conjunction with the *Ceremonies & Celebrations* opening will be the unveiling of the newly redesigned and much beloved museum giftshop, Shop@PAM.

USC Pacific Asia Museum Interim Director, Selma Holo said, "USC PAM is showcasing its strengths this fall with a very beautiful textile exhibition from our permanent collection, public programming for all ages and the return of our wonderful gift shop. This is going to be an exciting opportunity to welcome the community into the museum this season."

### About Ceremonies & Celebrations

With select examples across Asia, *Ceremonies and Celebrations* will explore interesting ideas that can connect these vast regions together. Some of the best examples in USC PAM's textile collection are rarely exhibited because of their fragile nature and the negative effect of light on the natural dyes used, and *Ceremonies and Celebrations* will provide visitors with an exceptional glimpse at those rarely seen textile collections.

The exhibition is divided into four thematic sections: gender, status, religion and ceremony. The first focuses on the connection between gender and textile production and the way that textiles are used to identify gender roles in society. The second idea that is explored in the exhibition is the role of textiles as a signifier of one's status. The third theme illustrates the unique relationship between textiles and religions across Asia. The final section looks at textiles worn or used in marking ceremonies and life transitions, including birth, weddings, and death. Textiles help to identify religious practitioners and add beauty to religious spaces and rituals.

"Many of these textiles have never been seen and are rarely exhibited together in this way." Said USC PAM exhibition curator, Rebecca Hall, "Textile exhibitions are always exciting because they make us think about how clothing and textiles help form identity and to see the commonalities across different cultures."

### About the Shop@PAM

The Shop@PAM will open to the public September 14, 2018 after an almost two year closure to a newly redesigned store concept and location. Now located in the Visitor Services Center of the museum, that also houses the admission desk, the shop will continue to support the museum's mission by inviting guests to further their education and appreciation of the countries, cultures and religions in USC PAM's permanent collection.

"We are excited to welcome the community back to the shop." Said Shop@PAM Store Manager Michelle Bourdon, "Visitors will find a refreshed store with natural lighting and a minimalistic design, with a strongly curated focus on Asian and Asian American artist's merchandise."

Interior design by Kelly Sutherlin McLeod Architecture, Museum store consulting provided by Shelly Stephens + Associates, display cases furnished by Subastral and select furniture kindly donated by Room & Board.

In kind support:
